### Run Reports

**Run:** 1928  
**Hare:** Denco  
**From:** "Sierra", Old Narrandera Rd  
**DHOTW:** Maximus

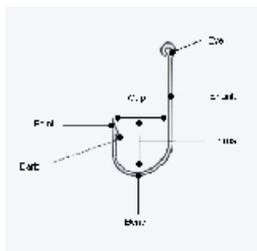

We all assembled at "The Ranch" on a chilly night... great fire bucket blazing away. Denco sent the pack out the gate along the ridge towards the tower only to find a "Enjoy the view, now return to start" message scrawled on an old ice-cream lid. Back at the start we then headed in the opposite direction down the hill and into the orchard... crossing several fields, the main running pack dispersing across whole paddocks, eventually running along Eldershaws Rd to the Old Narrandera Rd to the OH. Back at the fire bucket a delicious soup was awaiting followed by a tasty stew that only Denco could make.

**Run:** 1929  
**Hare:** Rinty  
**From:** Yento Drive  
**DHOTW:** Magpie (for not practicing enough on the his Horn)

Rinty's run was through the mazes of Glenfield... in a wide loop. The pack was lead in silence or at least the sounds of "Pheerrrrfff, pheeerrfff" as Magpie came to grips with the Hash Horn. The run revisiting alot of old trails (get creative Rinty) . Back at Fort Apache a scrumptious feed of roast pork and baked vegies was served to a hungry mob (much to the delight of those with special dietary needs). Congrats to Rinty and Amelia on their engagement. DHOW went justifiable to the Magpie for not practicing with his Horn.

**Run:** 1930  
**Hare:** Hooka  
**From:** Pugsley Ave, Estella  
**DHOTW:** Rinty for the quote "And hurry up!"

We all assembled at Hooka's place (it was like déjà vu, we seemed to only have just been here). But arrrh... I remember now.. only one fire bucket this time to prevent Eura getting his arse burnt off. The run went off out the front to the right, first check was at Estella Rd... the runners took a punt and headed over the new bridge and fanned out... finding trail across the oval, whilst "those with the 'knowing'" headed up to the carpark then through the campus up the hill BUT cut to the right down to the main gate and along Farrar Rd... down along Amundsen Rd, tippy-toing across shiggey and puddles... through the new estate and heading home... runners caught up to the "short-cutting bastards". Back at the fire-bucket we were served up piping hot pea and ham soup... along with Dude's famous damper. DHOTW went to Rinty for three words they he will never get to use again shortly... "And Hurry Up".

**Run:** 1931  
**Hare:** EURA  
**From:** The Sportsman Hotel  
**DHOTW:** Eura, for allowing the GM to nick his map out of his Hashbag.

This was the first of our pub sponsored runs for the new Hash year. Eura set trail, and being in the usual "Eura mood" only set one trail for both walkers and runners. First check was out on the corner of the Pub... from there up Kincaid St to Trail... from there it almost circumnavigated Central Wagga... a few checks along the way... crossing the railway line a couple of times... down around a few roundabouts... intending to OH outside the brothel... but street was too busy so headed up Edward St... OH at Inland Suzuki. Back at Pub... Pub supplied snags were sizzling on the BBQ ... plenty of tucker for all... the Publican even partook. DHOTW involved almost everyone in the Circle... but it came down to and "over-site" by Eura by leaving his HashBag wide open for the GM to help herself.

*Mark & Amelia's Engagement*

*Lake to Lagoon*

Congratulation to all those who participated in the Lake to Lagoon. The day turned out to be a perfect day for running. The "After Party" at The Sportsman was well supported.
